

Maternal Health Indicators from Birth through 12 Months Postpartum: The PAHS Study

MICHIGAN FACT SHEET

Results shown are self-reported by 231 Michigan respondents to the 2020 Postpartum Assessment of Health Survey (PAHS) at 12-14 months after giving birth. Data was collected from January 2021 to March 2022. Results are weighted to be representative of the collective experiences for the population of postpartum people who had a live birth in Michigan in 2020.

Did a doctor, nurse, or other health care provider ever talk with you about any of the following problems that could affect you up to one year after giving birth?

| | | | | | |
|---|--|---|---|--------------------------|---|
| Chest pain or fast-beating heart | Trouble breathing or shortness of breath | Dizziness or fainting | Changes in your vision | Overwhelming tiredness | Severe swelling, redness or pain in your leg or arm |
| 11% | 12% | 18% | 21% | 25% | 26% |
| Headache that won't go away or gets worse over time | Temperature of 100.4°F or higher | Thoughts of hurting yourself or your baby | Bleeding, soaking through one pad/hour or blood clots, the size of an egg or bigger | Any warning signs | |
| 27% | 31% | 46% | 47% | 65% | |

Since giving birth, have you experienced any of the following health problems or events?

Any Mistreatment by Care Providers in Childbirth (MCPC)

| | |
|--|------------|
| Any Mistreatment | 14% |
| Health care clinicians ignored you, refused your request for help, or failed to respond to requests for help in a reasonable amount of time* | 6% |
| Health care clinicians (doctors, midwives, or nurses) shouted at or scolded you* | 4% |
| Health care clinicians threatened to withhold treatment or forced you to accept treatment you did not want* | 2% |

**The MCPC scale is a patient-designed and validated measure of mistreatment during childbirth spanning multiple domains: physical abuse, sexual abuse, verbal abuse, neglect and abandonment, poor rapport between women and providers, loss of confidentiality, and lack of supportive care.

Rate the healthcare you received...

When you gave birth

0=worst health care possible
10=best health care possible

8.8

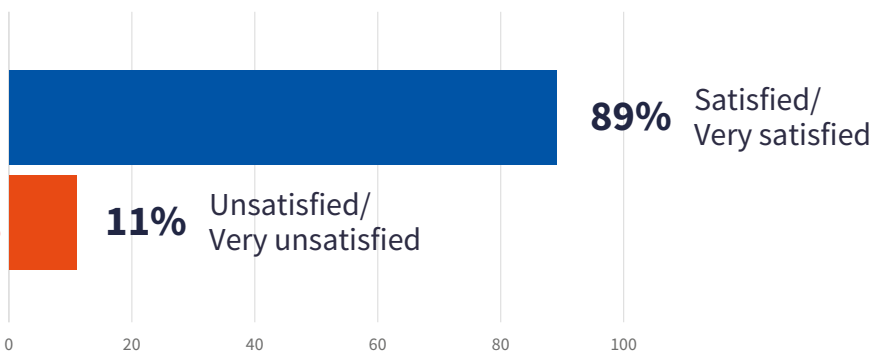

Since you gave birth

0=worst health care possible
10=best health care possible

8.6

Overall satisfaction with current child care arrangement

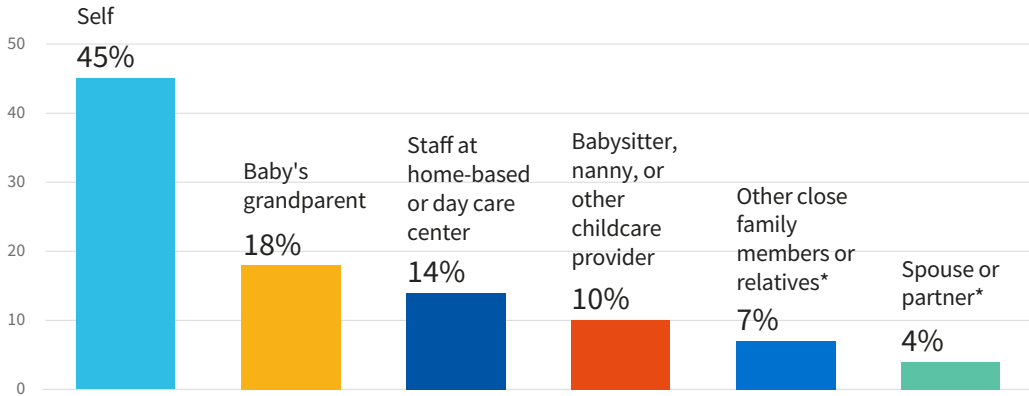

*Estimates have a Relative Standard Error between 30% and 50% - interpret with extra caution.
